

Kenland Walk Unit owners- Building 4 & 5

The master association fees that our association pays out of our monthly maintenance fee for the use of the clubhouse, tennis court and pool has not been paid by our board of directors for two months.

This places our properties at risk and a lien can be placed by the POA attorney to all of our properties if this money is not paid on time. We are all paying our monthly maintenance fees and part of this fee goes into the payment of this master association.

If you want to protect your property, your name and your credit please take action.
